Report of the Event :

On 25th July 2023 students of third B.P.Th made a Sensory board for training of patients with Sensory Integration issues. It was presented to the Neurophysiotherapy department and has been included in their stock list. The students displayed their creative skills to the best while making this board from waste materials. The hard work and the skills of the students has been duly noted and appreciated. The Parents Teacher Meeting for the students of BTF school was arranged on 11th August 2023. The Neurophysiotherapy department of TMV's Lokmanya Tilak College of Physiotherapy was also invited to join the meeting. Dr. Pranjal Grover (Professor & HOD) and Dr. Apoorva Dighe (Assistant Professor) attended this meeting. This event was coordinated by Dr. Satish Pimpale, Dr. Deepali Rathod. One on one meeting was conducted with parents of the students. They were updated with the physiotherapy protocol and goals for their ward. Any queries were addressed and suggestions noted down. A detailed sensory profiling of the child was done using the Short Sensory Profile (SSP). Consent of the parents was taken prior. Based on the results of the SSP parents were made aware of the child's issues and were advised regarding. General information regarding Sensory Processing Disorders was given to all the parents to increase awareness of the condition.

The counselling sessions were well received by all participants and they look forward for further events.
